

BABY TONE / ZERO

T Technology[©] inside by Ascaso.

Multi-group technology. Full PID control. It offers a great thermal stability with a high level of energy efficiency (low energy consumption) and clean and fresh water in each coffee.

Multi-group (separate) technology with PID control High professional-grade performance: Thermal stability guaranteed. High steam production.

Clean coffee. Minimal metal migration to the beverage through the use of stainless steel. Complies with European regulation EN 16889

Freshly Delivered Water.
Avoiding the use of standing, constantly reheated water to make the coffee.

Energy efficiency. We deliver a 50% average saving compared with a traditional machine and 25% compared with other multiboiler machines.

MAIN FEATURES

Multi Group technology (on/off by group). Professional Thermodynamic Groups.

Independent steam boiler. Stainless steel Aisi 316. Extremely sturdy. Large capacity.

External Pid control (+ 0,1°C) each group and steam boiler.

External timer for each group.

Digital Display in each group Multiple functions. Total control.

Thermal stability (+- 1,5°C).

Energy efficient (- 50%).

Powerful steamer (12 mm antilime scale tube. Stainless Steel. Cool touch)

Ascaso App. Total control. (Option)

Pump: Rotative (ONE), Vibratory (ZERO).

Water tank (2L).

Water network. (Option)

Thermal lagging on steam boiler. (Option)

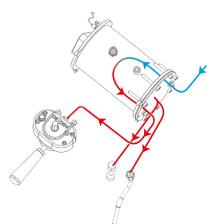

Active cup warmer. (Option)

Chromed foots. Great thickness. (Option)

Stainless steel rail. (Option)

DIFFERENCE BETWEEN ONE AND ZERO MODEL.

ONE: Rotative pump **ZERO**: Vibratory pump

COLOURS

Inox

White

Black

Sun Yellow

Love Red

Blue Kid

Fresh Pistachio
