## BAR POD

Especially created for low or moderate consumption.

Pod model for Pod system (option water tank or network connection).

**Thermoblock group.** Thermal stability. Quality in cup. Less limescale build-up. Stainless steel circuit reduces limescale build-up.

**Healthy 100%.** AISI 316 stainless steel water circuit. No metal migration in water. Complies with European standard EN 16889.

**Clean water.** Here it is constantly renewed and clean for every coffee. The taste and smell of the coffee are unaffected.

**Energy efficiency.** Up to 60% more efficient than a traditional boiler machine. Its technology (electronic temperature control, multi group, thermodynamic groups), obtain an exceptional result.

## MAIN FEATURES

**Multi group technology.** Coffee groups fully independent (off/only coffee/coffee+steam).

**Professional thermoblock.** Healthy 100%, thermoblock group, thermal stability, clean water, ....

**Independent steam boiler.** In stainless steel AISI 316. Extremely sturdy. Large capacity. (4L)

**Thermal stability** (+- 1,5°C) both in long series or spacing.

**Energy efficiency** (- 60%).

**Independent and regulable electronic** temperature control for each coffee group.

**Flexibility.** Removable water tank (5L-1gr 10L-2gr 10L-3gr) or main connection..

**Adjustable pressure valve (OPV).** 8 to 15 bars.

**Inox steam and water wands.** Stainless steel. Multidirectional to 360°. The steam wand is anti-lime scale and remains cool to the touch, reducing the risk of contact burns.

**Silent pump.** Self-priming. Professionals..

**For Pod system.**

**10 warnings.**
